Topic Watchlist & Escalation Matrix

Standing intelligence topics and when to escalate them · Knowledge base v1.0

1. Standing watchlist

Topic	What to watch	Angles
Road-safety regulation	New rules, enforcement campaigns, technology mandates in the UAE and GCC	Regulator announcements; enforcement statistics; industry response
Procurement fraud & debarment	Cases, convictions, and debarment lists relevant to public procurement	Court reporting; audit-authority findings; sanctions lists
Transport technology	Autonomous vehicles, smart-corridor and tolling technology deployments	Pilots and tenders; vendor announcements; academic studies
Supplier risk events	Insolvency, sanctions, ownership changes among strategic suppliers	Registry changes; financial press; official notices

2. Escalation matrix

Trigger	Severity	Action
Regulatory change with a compliance deadline	High	Same-day summary to the compliance owner with the deadline highlighted.
Strategic supplier named in fraud/sanctions reporting	High	Immediate note to procurement integrity; cross-check the supplier in the investigation environment.
Major incident involving monitored infrastructure	Medium	Include in the daily brief with verified facts only.
General industry development	Low	Weekly digest item.

3. Cadence

Daily: sweep Tier 1–2 sources for the watchlist topics (trailing 24–48 h window). Weekly: broader sweep including Tier 3 and a digest of low-severity items. Ad hoc: on request, monitor a topic across angles and report the synthesis with sources.
